YOUR DIGITAL LOCK SPECIALIST

SIMPLE, SAFE AND CONVENIENT

Adopt advanced semiconductor biological fingerprint technology and excellent zinc alloy lock body and tempered glass touch panel, 360° accurate identification, 0.5 seconds instant verification, up to 100 fingerprints and 100 digital passwords.

360° accurate identification
0.5 s Instant verification

PASSWORD VALIDATION

The virtual password is safer to prevent peeping. No verification is required in the normally open mode, and the door can be opened by pressing down the handle. More convenient.

Tap to wake
Press # key, Light up the number keys

Virtual password
*** [123123]

Arbitrary input Correct password

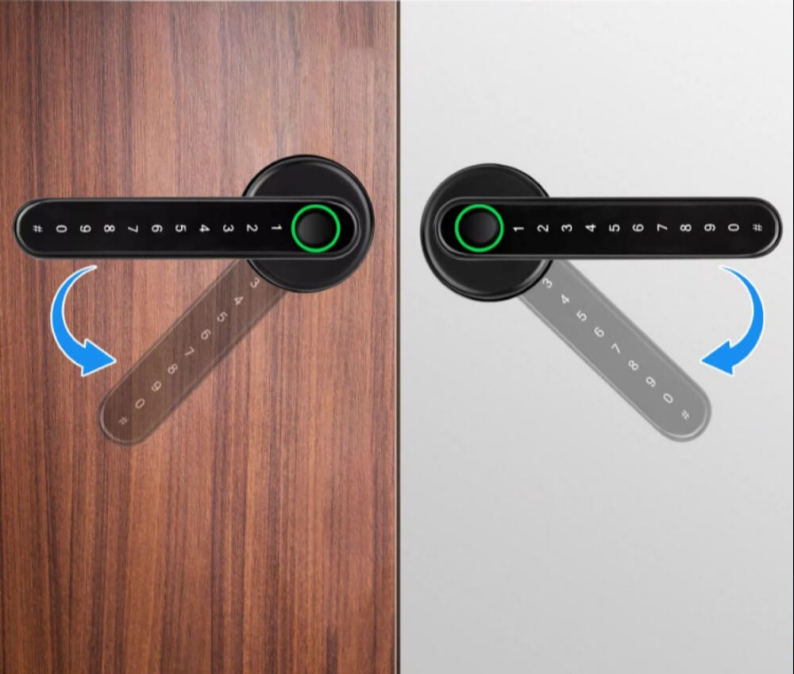

KEY OPENING

Invisible keyhole at the end of the handle

SWAP LEFT AND RIGHT

Regardless of the direction of the handle

ENERGY-SAVING LONG STANDBY

4 AAA batteries (not included) can provide 8000 unlocks. Equipped with an emergency charging port, in case the battery runs out, don't worry about being locked out.

* Tip: The USB port cannot be used to power the door lock or charge the internal battery.

EASY TO INSTALL

No need to wire, no need to drill, you can easily replace the keyless door and window into the existing knob. Compatible with indoor doors (applicable to left and right doors). The thickness of the door is 35mm-55mm. Door hole diameter: 50-60mm.

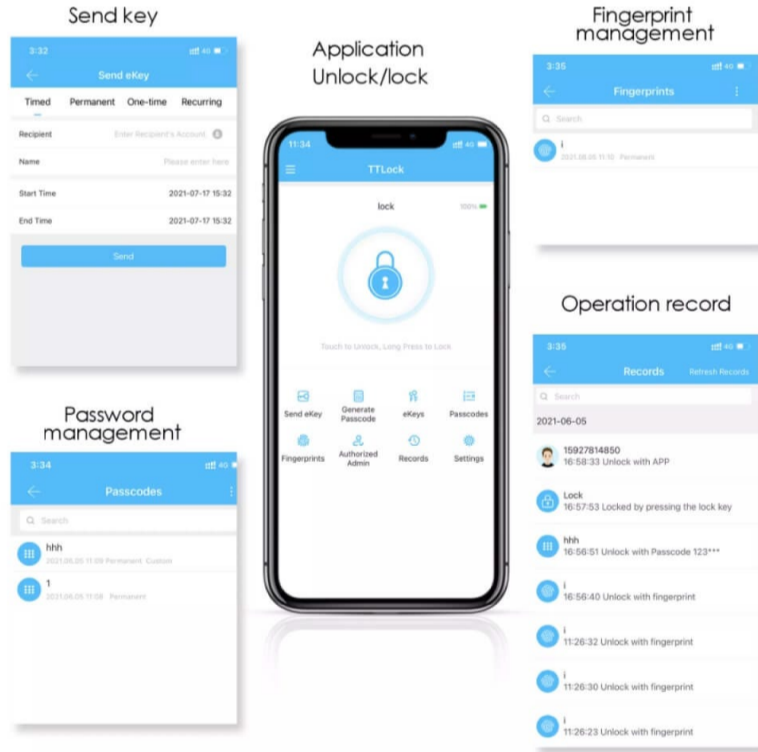

Suitable for a variety of venues home, office, meeting room, school, warehouse.

BLUETOOTH APPLICATION CONTROL

You can use mobile phone Bluetooth to unlock, or you can set a temporary password and share it with friends, visitors or housekeepers.
